NAIROBI.

21<sup>TH</sup> JULY 2006

Dear Sponsor,

I would like to take this opportunity to thank you for you have done me great. If it were not for you, I would not be able to survive at this centre. You have brightened my future. May the Almighty God bless you and add you more on what you have. I am glad that you have decided to open ways for me. Thanks a lot. I am very grateful.

Our family is made up of six family members, my father, mother and four children. I am the second born. I have got two brothers and one sister. We live in Mumias and are Luhya by tribe. We worship and believe in God. My father is a hawker while my mother is a housewife. My elder brother finished form four last year and my sister is in class six. My younger brother is in class three at Mumias Central Primary School.

At this centre we do thirteen subjects:

- Mathematics
- English
- Kiswahili.
- Geography.
- History
- Christian Religion Education
- Home Science
- Agriculture.
- Physics
- Chemistry
- Biology
- Computer studies
- Business studies

My favourite subject is English. I like playing badminton. Teachers here have done us good. They are committed and responsible. They do give us pieces of advice. We are well educated and empowered.

May the Almighty God bless you. Thanks alot.

Yours faithfully,  
Alria Kharita shikali,

Dear sponsor,

How are you? It is my sincere hope that you are fine. First, I take this golden opportunity to write a letter thanking you for choosing to support me and this school. I am glad because you have made the rest of my life more meaningful. I had lost hope in joining a boarding secondary school but then you have sacrificed part of your finances to support and educate me.

I would like to inform you that I am fifteen years old and I am very happy to be in this school because it is a school with a difference. Its main aim is to produce women of credentials.

In this school we learn physics, Biology, Chemistry, mathematics, Music, French, and Geography. My favourite subjects are sciences, mathematics and languages. My hobbies are swimming and singing.

My ambition is to become a doctor. I am working so hard to make my dream come true. I know that by supporting me I will make it. The teachers here are committed to make us excel and make our ambitions come true.

My parents are Peter and Joyce and they are casual labourers. I have one sister in Form three and a brother who is about to join university.

I enjoy so much being in a national school where there are girls from all over Kenya. We are the best school in the country and even we participate in co-curriculum activities. In competition especially music festivals and athletics we surprise everybody.

There is a good and enjoyable environment and we are determined to excel, even though it is a school starting small. Our director, Mrs Karaimu is a committed servant who works hand in hand with her team of teachers.

I am so grateful for your sponsorship and it is my great desire that in the future, I will help those girls who are less privileged, I will also make sure that I improve the living standards of the less privileged families.

By sponsoring me you have decided to serve the lord. I appreciate so much and I pray that Almighty God will bless you and guide your life as you serve him.

Yours sincerely

ANNE WAMBUI CHEGE

NAIROBI.

21<sup>st</sup> July 2006.

Dear sponsor,

I hope you are very fine. I am smartly fine and working hard.

May I take this opportunity to thank you very much for sponsoring me. May the good Lord bless you.

I am the lastborn in a family of seven: three boys and four girls. These are Celine, Charles, Fredrick, Jackline, Everline, Peter and Beatrice (me). Peter is in Starehe Boys Centre in form 2. I was born on 7th April 1992. My dad who was a doctor died in 1994 while my mum who was a tailor died in 2002. I now live with my brothers and sisters in Kericho District, Rift Valley Province.

The weather in Nairobi is now cold. We have to put on sweaters or jackets every now and then because it is the rainy season.

I am in form one at Starehe Girls Centre. In sports I like swimming, playing badminton, football and table tennis. My hobbies are dancing, reading, making new friends, singing, enjoying myself and swimming.

I would like to be an international neurosurgeon in future. In school, we learn thirteen

Maths	Chemistry	Home science
English	Biology	Agriculture
Kiswahili	Physics	Computer studies
Geography	French	
History	CRE	

My favourite subjects are the sciences though I like the languages very much.

Thank you once more for sponsoring me. Otherwise, have a nice time. Goodbye.

Yours faithfully,

Beatrice Anyango Dgolla.

20<sup>th</sup> July, 2006

Dear sponsor,

I would like to thank you for your sponsorship. I am very grateful for your sponsorship and efforts that you made to make sure that my school fees is paid. I appreciate.

I am a girl aged fifteen. I was born in 19-10-1990. I live at Mwingi district, in Eastern Province, in Kenya with my grandmother, my mother, my brothers and my sister.

My father abandoned our family when I was very young that I can't recognize him by now.

My mother is a peasant farmer. She earns our living through farming. My grandmother is an old woman.

My brothers are: Michael Musyoka who is in form four. He is educated by well wishers.

The other brothers are James Musya in standard five, Theophilus Kimanzi in standard one and Kelvin Fund who is not in school. I have one sister named Eunice Muthakye. She is in standard six.

I am now in form one at Starehe Girls' Centre, which is in Nairobi province. It is a cold place compared to my home place which is hot.

We have thirteen teachers who are very kind and loving. I study thirteen subjects which are: English, Kiswahili, mathematics, French;

Chemistry, Biology, Physics, Agriculture, Home Science, Computer, C.R.E, History and Geography.

I like chemistry, Biology, Geography, Kiswahili, French and English. I would like to be a Neurosurgeon after I complete my studies.

My school performs very well both academically and in other curriculum activities. It is ever best whenever we go for competition. In sports we proceeded up to provincial level. I was one among the athletes.

In the music competition, our school choir won in the provincial competition and now it is proceeding to the national competition whereby we are looking forward to winning again.

We won five trophies during music competition and one trophy during sports competition.

I am very happy to be one of the students in Starehe Girls. It is a favourable place I have ever been, and I once again

thank you very much for paying my school fees to continue studying at Starehe.

I don't have much

Yours Faithfully

Caroline Mumbani mwenda

21/1/2006.

Dear Sponsor,

How are you? This letter is a token of my gratitude for your sponsorship in Starehe Girls' Centre. You have really short a light ~~in~~ to my once darkened future. You filled me with hope to a prosperous future.

I actually had no hopes of joining a secondary school in life, not even the local secondary school in my village. But because of your support and care you've given me an opportunity to access secondary education in a national school ~~more so~~ in Starehe Girls Centre. Which is one of the best national schools in the country.

I am a girl of fourteen years and a last born in a family of seven. I have two brothers who are unemployment and four sisters who too are unemployment. They survive by the any sort of work available. I have a single parent. My father abandoned us during our tender ages and he has never cared about us. During my primary school education, I suffered a lot due to lack of school fees. But all in all I worked very hard to attain the grade of a national school student.

I am proud of being in Starehe girls. It is really a school with a difference. It is empowering women from all over the country. Besides academic excellence, the school provides other skills. Example in tailoring, basket weaving, knitting and growing of crops.

We have engaged in co-curriculum activities. This year I was among the best poem presenters who are proceeding to nationals. I am also in the music department, also we managed to bring to our school trophies, and we are proceeding to nationals next month.

In the school we learn thirteen subjects and among the thirteen physics and English is my favourite subjects. I would like to pursue flight engineering as my career. I would like to thank you very much for your support.

I want to work hard and uplift the living standards of my family and other underprivileged girls as I. May the Almighty God bless you abundantly and may you live to see the fruits you have boreed in me. Thank you very much.

Yours faithfully,

Joyce Wangarikwajiru
