

AGENDA

COVID-19 Vaccine Webinar for Community Based Organizations

Wednesday, December 16, 2020 | 3:00-4:00 pm (EST)

3:00-3:07 pm

Welcome

Lisa Waddell, MD, MPH - Chief Medical Officer, CDC Foundation;
Webinar Host

3:07-3:20 pm

A Conversation About COVID-19, Vaccines and Collective Action

Anne Schuchat, MD - Principal Deputy Director, Centers for Disease Control and Prevention (CDC)

Judy Monroe, MD - President and CEO, CDC Foundation

3:20-3:27 pm

Interactive Polling

Sharon Moffatt, MS, BSN - Senior Advisor, CDC Foundation COVID-19 Corps

- *What area does your organization represent?*
- *What are CBOs' priority needs to support COVID-19 vaccine efforts?*
- *What are CBOs' priority roles in COVID-19 vaccine efforts?*

3:27-3:40 pm

Communities and COVID-19 Vaccines: A Conversation with Community Leaders

Virginia Caine, MD - Director, Marion County Public Health Department, Indianapolis, Indiana; Associate Professor of Medicine, Indiana University School of Medicine, Infectious Diseases Division

Eric Moore, MSPH - Policy and Research Manager, The Center for African American Health, Denver, Colorado

Judy Monroe, MD - President and CEO, CDC Foundation

3:40-3:50 pm

Q&A

3:50-3:55 pm

Call to Action

Judy Monroe, MD, President and CEO, CDC Foundation

3:55-4:00 pm

Thank You/Adjourn

Lisa Waddell, MD, MPH

PRESENTER BIOS

Judith Monroe, MD

President and CEO, CDC Foundation

Dr. Judith Monroe, president and CEO of the CDC Foundation, has dedicated her career to protecting people and saving lives. She joined the CDC Foundation in February 2016 as president and CEO, following her role as a deputy director of the U.S. Centers for Disease Control and Prevention (CDC) and director of CDC's Office of State, Tribal, Local and Territorial Support.

In her work at the CDC Foundation, Dr. Monroe advances priority programs that improve the health of people across America and around the world. The CDC Foundation mobilizes philanthropic and private-sector resources to support CDC's critical health protection work, managing hundreds of programs in the United States and in more than 140 countries.

The CDC Foundation is actively supporting CDC and U.S. health departments' response to the COVID-19 pandemic. Under Dr. Monroe's leadership, the CDC Foundation has provided support to disproportionately affected populations; procured personal protection equipment for frontline health workers; is hiring surge staff for all 50 states, six large cities, tribal organizations and territories; and is supporting data solutions for contact tracing. In addition, the CDC Foundation is supporting communications and clinical research, including a portfolio with a focus on health equity. The CDC Foundation is also partnering with cross-sectoral leaders to provide expert panel discussions and scenario planning to help safely reopen the U.S. economy.

The CDC Foundation responded to the Zika epidemic as an implementing partner in addition to mobilizing resources; supported the response and recovery from the 2017 hurricane season; and serves as CDC's strategic partner for global health security. In 2019, Dr. Monroe was recognized by the Metro Atlanta Chamber of Commerce with a MAC Heroes of Global Health award.

Prior to the CDC Foundation, Dr. Monroe oversaw key activities and technical assistance at CDC supporting the nation's health departments and the public health system. Throughout the 2014–15 Ebola epidemic she served as senior advisor for the domestic response. During her tenure as the state health commissioner for Indiana she served as president of the Association of State and Territorial Health Officials through the H1N1 pandemic. She envisioned and founded the ASTHO president's challenge in 2008. This leadership platform resulted in initiatives with significant health improvements and focus of ASTHO annual meetings.

Dr. Monroe currently serves on the board of directors for the Center for Global Health Innovation and for the Georgia Global Health Alliance, and is a member of the Milken Institute's Public Health

PRESENTER BIOS

Advisory Board. Additionally, she serves as a member of the World Health Organization Foundation's Advisory group and on the Advisory Council of the Pandemic Action Network.

Dr. Monroe was recognized in October 2020 by United Way of Greater Atlanta with the Woman of Excellence Award for her unwavering commitment to serving the community. CDC's Office of Minority Health and Health Equity also recognized her in 2020 as their Summer Health Equity Champion. In 2019, she received the American Public Health Association's Presidential Citation for her work to improve the health and well-being of people around the world, and for her commitment to the future of public health as a mentor to young physicians and public health students.

Dr. Monroe received her doctor of medicine from the University of Maryland and a bachelor of science degree from Eastern Kentucky University. She completed her residency in family medicine at the University of Cincinnati, a rural faculty development fellowship through East Tennessee State University, and a mini-fellowship in obstetrics through the University of Wisconsin. She also participated in the State Health Leadership Initiative at Harvard University's Kennedy School of Government and received an honorary doctorate from Purdue University in Health and Human Services.

Anne Schuchat, MD (RADM, USPHS, RET)

Principal Deputy Director, Centers for Disease Control and Prevention

Dr. Anne Schuchat is the Principal Deputy Director of CDC. She has been CDC's principal deputy director since September 2015. She served as acting CDC director from January-July 2017 and February-March 2018.

Dr. Schuchat also served as director of CDC's National Center for Immunization and Respiratory Diseases from 2006-2015 and Chief of the Respiratory Diseases Branch from 1998-2005. She joined CDC as an Epidemic Intelligence Service officer in 1988.

Dr. Schuchat played key roles in CDC emergency responses including the 2009 H1N1 pandemic influenza response, the 2003 SARS outbreak in Beijing, and the 2001 bioterrorist anthrax response. Globally, she has worked on meningitis, pneumonia and Ebola vaccine trials in West Africa, and conducted surveillance and prevention projects in South Africa.

Dr. Schuchat graduated from Swarthmore College and Dartmouth Geisel School of Medicine and completed her residency and chief residency in internal medicine at NYU's Manhattan VA Hospital. Upon completing 30 years of service in 2018, Dr. Schuchat retired from the Commissioned Corps of the United States Public Health Service at the rank of Rear Admiral.

PRESENTER BIOS

Virginia A. Caine, MD

**Director, Marion County Public Health Department,
Indianapolis, Indiana**

**Associate Professor of Medicine, Indiana University
School of Medicine, Infectious Diseases Division**

Virginia A. Caine, MD, is director of the Marion County Public Health Department and associate professor of medicine at Indiana University School of Medicine, Infectious Diseases Division. She previously served as past president for the American Public Health Association, the nation's oldest and largest public health organization. She received the BioCrossroads "2017 August M. Watanabe Life Sciences Champion of the Year" Award.

Dr. Caine set up the first nationwide physician educational program regarding AIDS for the National Medical Association, which was later duplicated by the American Medical Association. She led a process to create the city's first integrated HIV health care delivery system and was principal investigator for the Ryan White Title III funds, which established the first HIV/AIDS clinics in the major city hospitals, ten community health centers, and the resource for community-based HIV/AIDS prevention programs.

She was also instrumental with community leaders in reducing the Black infant mortality rate to its lowest level ever in the history of Indianapolis.

She is the Chair of the I.U. Simon Cancer Center Community Advisory Committee. She is also Immediate Past Chairman of the Board of Trustees for the National Medical Association and current Chair of the Infectious Diseases Section. She is a board member for the CDC Morbidity and Mortality Weekly Report (MMWR) Editorial Board. She is also Chair of the Managed Emergency Surge for Healthcare (MESH) Coalition, a nonprofit public-private partnership addressing emergency preparedness in Marion County, Indiana. She is a member of the National Biodefense Science Board and Co-chair, Jump In for Healthy Kids Advisory Committee; Founding member, Indiana Health Information Exchange; and Board member, Indiana Latino Institute.

Dr. Caine has earned a national reputation and received many awards for her dedication to improving public health. She was named the National Medical Association's 2010 Practitioner of the Year, and has received the prestigious Sagamore of the Wabash award from two Indiana Governors.

PRESENTER BIOS

Dr. Caine earned her medical degree at New York Upstate Medical Center in Syracuse. She completed her Internal Medicine residency at the University of Cincinnati College of Medicine. She received her Infectious Diseases fellowship training at the University of Washington School of Medicine in Seattle.

Eric Moore, MSPH

**Policy and Research Manager
The Center for African American Health
Denver, Colorado**

Eric Moore, MSPH, joined the Center for African American Health in 2018 and currently serves as the Policy and Research Manager. He is responsible for monitoring, tracking and analyzing key Social Determinants of Health (SDOH) policy issues aligned with CAA Health's annual policy agenda.

As well, he manages the BeHeard Mile High community health panel, a 1,200 member longitudinal panel devoted to amplifying community voice to understand and inform policy solutions and social justice issues.

Eric attended the University of Colorado Denver for his Bachelor's of Science in Biology and completed his Master's of Science in Public Health at Southern New Hampshire University with a concentration in program planning and evaluation.

His areas of expertise include program planning, evaluation and learning, and quantitative data analysis with an emphasis on health and racial equity.

PRESENTER BIOS

Lisa Waddell, MD, MPH

Chief Medical Officer, CDC Foundation

Dr. Lisa F. Waddell is the chief medical officer for the CDC Foundation, an independent nonprofit and the sole entity created by Congress to mobilize philanthropic and private-sector resources to support the Centers for Disease Control and Prevention's critical health protection work. Waddell reports to Dr. Judith Monroe, president and CEO of the CDC Foundation.

As chief medical officer (CMO), Waddell manages the Foundation's COVID-19 response efforts, including directing the team of senior advisors, who are providing support to health departments across the nation, and the COVID-19 Corps surge staff hired as part of the response. Waddell serves on the Foundation's executive team.

Before joining the CDC Foundation in 2020, Waddell held leadership roles for the March of Dimes, where she served as deputy chief medical and health officer and the senior vice president for Maternal and Child Health Impact nationwide. Prior to the March of Dimes, Waddell worked with the Association of State and Territorial Health Officials as chief of community health and prevention. Before this role, she served as deputy commissioner for Health Services for the South Carolina Department of Health and Environmental Control, the state's public health agency. In addition to these roles, Waddell served as a local public health director for a four-county district in South Carolina and as the deputy public health director/medical director in Richmond, VA.

Waddell is a leader in public health as a preventive medicine and public health physician with over 28 years of local, state and national public health leadership experience. She has a passion for public health and is committed to promoting and protecting the health of populations. She has a particular interest in addressing the needs of vulnerable populations, needs of moms and babies, and those with disparate health outcomes.

Waddell received her doctor of medicine from the Medical College of Virginia and a bachelor's in biology from the University of Virginia. She completed her residency in preventive medicine/public health from the Medical College of Virginia, and she received her master's in public health from the University of North Carolina at Chapel Hill. She is a graduate of the National Public Health Leadership Institute. She is a member of several professional organizations including the American College of Preventive Medicine, the American Public Health Association, the National Medical Association and the South Carolina Public Health Association.

PRESENTER BIOS

Sharon Moffatt, MS, BSN

CDC Foundation COVID-19 Corps Senior Advisor

Sharon Moffatt, MS, BSN, has over 35 years of experience as a public health leader working at the local, state and national level. Her early years as a public health nurse included home visiting, WIC clinics, Children with Special Needs Clinics and Refugee Health. In the 1990's Sharon was part of Governor Dean's administration team to develop and implement Vermont's Healthy Babies System of Care. In 2002 she was appointed Senior Deputy Health Commission then advanced to State Health Commissioner in the Governor Douglas administration in 2006. In this role Sharon led complex initiatives including the development and implementation of Vermont's Blueprint for Health—a national model of health system transformation.

In the past 10 years, Sharon Moffatt has been in a leadership role at the Association of State and Territorial Health Officials (ASTHO). Her work has focused on identification of the issues and working on solutions with the 57 state and territorial health officials and in coordination and collaboration with federal agencies, policy makers, public health organizations and nationally recognized funders. Additionally, she has led initiatives including health transformation, informing and implementation of local, state and national policy, quality improvement initiatives and cross-sector collaboration. She has led the design and application of national and multi-state quality improvement collaboratives in such areas as opioid use/abuse reduction, infant mortality, and hypertension reduction. In partnership with the Center for Creative Leadership, Sharon has assisted in the development of a comprehensive leadership institute for state health officials and their health agency teams. Sharon now works as a consultant for national, state and local organizations with a focus on leadership development to impact health outcomes and the design and implementation of health system transformation.
