Monitoring U.S. E-Cigarette Sales: National Trends

This brief report highlights trends in national e-cigarette sales from January 2017 to September 2021.

Federal Regulatory Actions and Other Emergent Events

- The U.S. Food and Drug Administration (FDA) issued an enforcement policy, effective February 2020, prohibiting the sale of flavored prefilled cartridges e-cigarettes, which does not apply to tobacco-and menthol-flavored prefilled cartridges, e-liquids, or single use disposable products.
- Emergent events at the national level may have affected e-cigarette sales, including the e-cigarette or vaping product use-associated lung injury (EVALI) outbreak during August 2019 - January 2020 and COVID-19 pandemic.

Key Findings

- Total e-cigarettes:
  - From February 2020 to September 2021, total e-cigarette unit sales increased by 62.6% (from 14.8 million units to 24.1 million units). During this period, sales of non-tobacco flavored e-cigarettes (mint, menthol and other flavors) increased by 86.1% (from 9.7 million to 18.1 million).
  - The 2021 National Youth Tobacco Survey (NYTS) found that 11.3% (1.72 million) of high school and 2.8% (320,000) of middle school students were current e-cigarette users. Overall, 84.7% used flavored e-cigarettes.\(^1\)

- Flavored disposable e-cigarettes:
  - From February 2020 to September 2021, sales of disposable e-cigarettes increased by 244.6% (from 2.8 million units to 9.6 million units). During this period, the market share of disposable devices more than doubled, from 18.8% to 39.8% of total e-cigarette sales. As of September 2021, 80.6% of disposable sales were of flavors other than tobacco, mint and menthol.
  - Consistent with sales trends, the 2021 NYTS found that more than half (53.7%) used disposable e-cigarettes. Among current youth users of flavored disposable e-cigarettes, the most commonly used flavor types were fruit (78.7%) and candy/desserts/other sweets (32.3%).

- Menthol flavored prefilled cartridge e-cigarettes:
  - From February 2020 to September 2021, overall menthol flavored e-cigarette sales increased by 46.0% (from 6.4 million to 9.3 million units), including a 52.6% increase in menthol-flavored cartridge sales (from 5.9 million units to 9.0 million units). As of September 2021, menthol flavored e-cigarettes sales accounted for 38.6% of the overall e-cigarette market and 61.9% of the prefilled cartridge market.
  - The 2021 NYTS also found high menthol flavored e-cigarette use among youth users of flavored e-cigarettes (28.8%), particularly among current flavored prefilled cartridge users (46.3%).

Conclusion

Restrictions that exempt certain flavors and product types are likely to shift sales to the products and flavors that remain on the market, deterring progress in reducing overall use. Comprehensive policies that prohibit all non-tobacco flavored e-cigarettes, including flavored disposable e-cigarettes and menthol-flavored prefilled cartridges, may reduce e-cigarette sales, reduce youth access to flavored e-cigarettes, and ultimately reduce youth e-cigarette use.

Trends of Unit Sales by Flavor Following FDA’s Flavor Enforcement Policy

- From February 23, 2020 to September 5, 2021, total monthly e-cigarette unit sales increased by 62.6% to 24.1 million units.
- From February 23, 2020 to September 5, 2021, sales of non-tobacco flavored e-cigarettes (mint, menthol and other flavors) increased by 86.1% (from 9.7 million to 18.1 million).
- From February 23, 2020 to September 5, 2021:
  - Menthol-flavored e-cigarette sales increased by 46.0% (from 6.4 million to 9.3 million); market share decreased from 43.0% to 38.6%.
  - Tobacco-flavored e-cigarette sales increased by 17.7% (from 5.1 million to 6.0 million); market share decreased from 34.3% to 24.9%.
  - Mint-flavored e-cigarette sales increased by 61.4% (from 0.7 million to 1.1 million); market share decreased from 4.44% to 4.40%.
  - All other-flavored e-cigarette sales increased by 186.3% (from 2.7 million to 7.7 million); market share increased from 18.3% to 32.1%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (11.5% of total sales).

Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020 and September 5, 2021:
  - Sales of disposable devices increased by 244.6% (from 2.8 million to 9.6 million); market share increased from 18.8% to 39.8%.
  - Sales of prefilled cartridges increased by 20.7% (from 12.0 million to 14.5 million); market share decreased from 81.1% to 60.2%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; prefilled cartridges include tanks, cartridges, and pods used in rechargeable and reusable e-cigarette device; disposable devices include nonrechargeable and nonreusable e-cigarette devices that are not intended to be refilled with e-liquid after being depleted; e-liquids are containers of the liquid used in e-cigarette devices, which typically contains a humectant (e.g., propylene glycol), nicotine, and flavoring.

Figure 5. Market Share of National E-Cigarette Unit Sales by Flavor, Annual Estimates 2017 – 9/2021*

Unit Sales Annual Trends by Flavor (2020-Sep 2021)

- From 2020 to Sep 2021:
  - Market share of menthol-flavored e-cigarette sales decreased from 46.0% to 40.4%;
  - Market share of tobacco-flavored e-cigarette sales decreased from 31.6% to 25.7%;
  - Market share of mint-flavored e-cigarette sales increased from 3.0% to 3.9%; and
  - All other-flavored e-cigarette sales increased from 19.3% to 30.1%.

*Sales data does not reflect sales from vape shops or online retailers; dates for all years, except 2021, include sales from January through December; data for 2021 include sales from January through September; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (11.5% of total sales).
