Monitoring U.S. E-Cigarette Sales: National Trends

This brief report highlights trends in national e-cigarette sales from January 2018 through January 2022.

Federal Regulatory Actions and Other Emergent Events

- The U.S. Food and Drug Administration (FDA) issued an enforcement policy, effective February 2020, prohibiting the sale of flavored prefilled cartridges e-cigarettes, which does not apply to tobacco-and menthol-flavored prefilled cartridges, e-liquids, or single use disposable products.
- FDA began issuing marketing denial orders for flavored e-cigarette products leading up to the court-ordered deadline of September 9, 2021 to rule on product applications. However, the FDA has yet to rule on products with over 75% of the e-cigarette market.
- Emergent events at the national level may have affected e-cigarette sales, including the e-cigarette or vaping product use-associated lung injury (EVALI) outbreak during August 2019 - January 2020 and COVID-19 pandemic.

Key Findings

- **Total e-cigarettes:**
  - From February 23, 2020, to January 23, 2022, total e-cigarette unit sales increased by 44.3% (from 14.8 million units to 21.4 million units). During this period, sales of non-tobacco flavored e-cigarettes (mint, menthol and other flavors) increased by 62.5% (from 9.7 million to 15.8 million).
  - The 2021 National Youth Tobacco Survey (NYTS) found that 11.3% (1.72 million) of high school and 2.8% (320,000) of middle school students were current e-cigarette users. Overall, 84.7% used flavored e-cigarettes.¹

- **Flavored disposable e-cigarettes:**
  - From February 23, 2020, to January 23, 2022, sales of disposable e-cigarettes increased by 189.4% (from 2.8 million units to 8.0 million units). During this period, the market share of disposable devices increased from 18.8% to 37.6% of total e-cigarette sales. As of January 23, 2022, 79.7% of disposable sales were of flavors other than tobacco, mint and menthol.
  - Consistent with sales trends, the 2021 NYTS found that more than half (53.7%) used disposable e-cigarettes. Among current youth users of flavored disposable e-cigarettes, the most commonly used flavor types were fruit (78.7%) and candy/desserts/other sweets (32.3%).

- **Menthol flavored prefilled cartridge e-cigarettes:**
  - From February 23, 2020, to January 23, 2022, overall menthol flavored e-cigarette sales increased by 34.3% (from 6.4 million to 8.5 million units), including a 39.8% increase in menthol-flavored cartridge sales (from 5.9 million units to 8.2 million units). As of January 23, 2022, menthol flavored e-cigarettes sales accounted for 40.0% of the overall e-cigarette market and 61.7% of the prefilled cartridge market.
  - The 2021 NYTS also found high menthol flavored e-cigarette use among youth users of flavored e-cigarettes (28.8%), particularly among current flavored prefilled cartridge users (46.3%).

Conclusion

Restrictions that exempt certain flavors and product types are likely to shift sales to the products and flavors that remain on the market, deterring progress in reducing overall use. Comprehensive policies that prohibit all non-tobacco flavored e-cigarettes, including flavored disposable e-cigarettes and menthol-flavored prefilled cartridges, may reduce e-cigarette sales, reduce youth access to flavored e-cigarettes, and ultimately reduce youth e-cigarette use.

Figure 1. National E-Cigarette Unit Sales by Flavor, 4 Week Estimates 01/28/2018 – 01/23/2022*

Trends of Unit Sales by Flavor Following FDA’s Flavor Enforcement Policy

- From February 23, 2020, to January 23, 2022, total monthly e-cigarette unit sales increased by 44.3% to 21.4 million units.
- From February 23, 2020, to January 23, 2022, sales of non-tobacco flavored e-cigarettes (mint, menthol and other flavors) increased by 62.5% (from 9.7 million to 15.8 million).
- From February 23, 2020, to January 23, 2022:
  - Menthol-flavored e-cigarette sales increased by 34.3% (from 6.4 million to 8.5 million); market share decreased from 43.0% to 40.0%.
  - Tobacco-flavored e-cigarette sales increased by 9.0% (from 5.1 million to 5.5 million); market share decreased from 34.3% to 25.9%.
  - Mint-flavored e-cigarette sales increased by 26.3% (from 0.7 million to 0.8 million); market share decreased from 4.4% to 3.9%.
  - All other-flavored e-cigarette sales increased by 137.6% (from 2.7 million to 6.4 million); market share increased from 18.3% to 30.1%.
- From September 5, 2021, to January 23, 2022, e-cigarette sales declined by 11.3% (from 24.1 million units to 21.4 million units).

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (11.5% of total sales).
Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020, and January 23, 2022:
  - Sales of disposable devices increased by 189.4% (from 2.8 million to 8.0 million); market share increased from 18.8% to 37.6%.
  - Sales of prefilled cartridges increased by 10.9% (from 12.0 million to 13.3 million); market share decreased from 81.1% to 62.3%.

**Figure 5. Market Share of National E-Cigarette Unit Sales by Flavor, Annual Estimates 2017 – 2021***

### Unit Sales Annual Trends by Flavor (2020 - 2021)

- **From 2020 to 2021:**
  - Market share of menthol-flavored e-cigarette sales decreased from 46.0% to 40.4%;
  - Market share of tobacco-flavored e-cigarette sales decreased from 31.6% to 25.8%;
  - Market share of mint-flavored e-cigarette sales increased from 3.0% to 3.9%; and
  - Market share of other-flavored e-cigarette sales increased from 19.3% to 29.9%.

*Sales data does not reflect sales from vape shops or online retailers; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (11.5% of total sales).
Figure 6. Market Share of National E-Cigarette Unit Sales by Flavor, Annual Estimates 2017-2021*

- From 2020 to 2021:
  - Annual total e-cigarette unit sales increased by 31.1% (from 221.5 million to 290.4 million units);
  - Market share of menthol-flavored e-cigarettes decreased from 46.0% to 40.4%;
  - Market share of tobacco-flavored e-cigarettes decreased from 31.6% to 25.8%;
  - Market share of mint-flavored e-cigarette sales increased from 3.0% to 3.9%; and
  - Market share of other-flavored e-cigarette sales increased from 19.3% to 29.9%.

*Sales data does not reflect sales from vape shops or online retailers; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (11.5% of total sales).
