This data brief highlights trends in e-cigarette unit sales in selected states. Data is presented from January 2018 through October 2022.

• Notice of Revision to Previous Data Estimates
  • The data in this brief have been updated to capture new e-cigarette products coded by IRI. Historical sales estimates may differ from previous briefs.

• Federal Flavor Regulatory Initiatives
  • The U.S. Food and Drug Administration (FDA) issued an enforcement policy, effective February 2020, prohibiting the sale of flavored prefilled e-cigarette cartridges, which does not apply to tobacco-and menthol-flavored prefilled cartridges, e-liquids, or single use disposable products.
  • FDA began issuing marketing denial orders for flavored e-cigarette products as of September 9, 2021. However, final marketing orders have not been issued for products making up at least two-thirds of the e-cigarette market.
  • On April 15, 2022, FDA was granted authority to regulate products containing nicotine from any source, including synthetic nicotine produced in a laboratory.
  • In April 2022, FDA issued a proposal to eliminate menthol cigarettes and flavored cigars.

• Other Relevant Issues
  • The e-cigarette or vaping product use-associated lung injury (EVALI) outbreak in late 2019 and COVID-19 pandemic may have affected e-cigarette sales.
  • During the period, additional flavored tobacco products continued to be marketed, such as flavored cigars; or entered the market, such as nicotine pouches.
  • Units of e-cigarettes are not adjusted to account for variations in unit size. Large-format disposable e-cigarettes that allow for thousands of “puffs” are now available. Declines in unit sales may not signify declines in prevalence of use or consumption.

• State and Local Legislative Initiatives
  • As of December 2022, five states (Massachusetts, New York, New Jersey, Rhode Island, and California) have passed laws prohibiting the sale of all non-tobacco flavored e-cigarettes and two states (Maryland, Utah) restrict the sale of some flavored e-cigarettes. In addition, over 360 local jurisdictions enacted laws that restrict the sale of flavored e-cigarettes.
  • More information about state and local policies can be found on the Truth Initiative’s website.
**Figure 1. California E-Cigarette Unit Sales by Flavor, 4 Week Estimates 1/2018 – 10/2022**

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruits, clove/spice, chocolate, alcoholic drinks (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (2.6% of total dollar sales in October 2022).*

**Trends of Unit Sales by Flavor Following FDA’s Flavor Enforcement Policy**

- From February 23, 2020 to October 30, 2022, monthly e-cigarette unit sales decreased by 6.0% from 831.0 to 781.4 thousand units.
- From February 23, 2020 to October 30, 2022:
  - Menthol-flavored e-cigarette sales increased by 2.5% (from 226.0 thousand to 231.6 thousand); unit share increased from 27.2% to 29.6%.
  - Tobacco-flavored e-cigarette sales decreased by 23.5% (from 281.3 thousand to 215.1 thousand); unit share decreased from 33.8% to 27.5%.
  - Mint-flavored e-cigarette sales increased by 9.0% (from 62.2 thousand to 67.8 thousand); unit share increased from 7.5% to 8.7%.
  - All other-flavored e-cigarette sales decreased by 0.1% (from 256.8 thousand to 256.4 thousand); unit share increased from 30.9% to 32.8%.
Figure 2. California E-Cigarette Unit Sales by Product Type, 4 Week Estimates 1/2018 – 10/2022*

Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020 and October 30, 2022:
  - Sales of disposable devices increased by 15.2% (from 307.9 thousand to 354.7 thousand); unit share increased from 37.1% to 45.4%.
  - Sales of prefilled cartridges decreased by 18.4% (from 521.1 thousand to 425.3 thousand); unit share decreased from 62.7% to 54.4%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; prefilled cartridges include tanks, cartridges, and pods used in rechargeable and reusable e-cigarette device; disposable devices include nonrechargeable and nonreusable e-cigarette devices that are not intended to be refilled with e-liquid after being depleted; e-liquids are containers of the liquid used in e-cigarette devices, which typically contains a humectant (e.g., propylene glycol), nicotine, and flavoring.

Figure 4. Colorado E-Cigarette Unit Sales by Flavor, 4 Week Estimates 1/2018 – 10/2022*

Trends of Unit Sales by Flavor Following FDA’s Flavor Enforcement Policy

- From February 23, 2020 to October 30, 2022, monthly e-cigarette unit sales increased by 27.3% from 325.6 to 414.7 thousand units.
- From February 23, 2020 to October 30, 2022:
  - Menthol-flavored e-cigarette sales increased by 49.3% (from 142.2 thousand to 212.4 thousand); unit share increased from 43.7% to 51.2%.
  - Tobacco-flavored e-cigarette sales decreased by 21.6% (from 129.8 thousand to 101.7 thousand); unit share decreased from 39.9% to 24.5%.
  - Mint-flavored e-cigarette sales decreased by 2.5% (from 7.5 thousand to 7.3 thousand); unit share decreased from 2.3% to 1.8%.
  - All other-flavored e-cigarette sales increased by 96.9% (from 46.1 thousand to 90.8 thousand); unit share increased from 14.2% to 21.9%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (2.6% of total dollar sales in October 2022).
Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020 and October 30, 2022:
  
  o Sales of disposable devices increased by 295.2% (from 30.6 thousand to 120.8 thousand); unit share increased from 9.4% to 29.1%.
  
  o Sales of prefilled cartridges decreased by 0.4% (from 295.1 thousand to 293.9 thousand); unit share decreased from 90.6% to 70.9%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (2.6% of total dollar sales in October 2022).*

**Trends of Unit Sales by Flavor Following FDA’s Flavor Enforcement Policy**

- From February 23, 2020 to October 30, 2022, monthly e-cigarette unit sales decreased by 10.8% from 227.8 to 198.8 thousand units.
- From February 23, 2020 to October 30, 2022:
  - Menthol-flavored e-cigarette sales increased by 25.9% (from 117.5 thousand to 148.0 thousand); unit share increased from 52.7% to 74.4%.
  - Tobacco-flavored e-cigarette sales decreased by 39.2% (from 67.3 thousand to 41.0 thousand); unit share decreased from 30.2% to 20.6%.
  - Mint-flavored e-cigarette sales decreased by 93.7% (from 10.2 thousand to 0.6 thousand); unit share decreased from 4.6% to 0.3%.
  - All other-flavored e-cigarette sales decreased by 66.8% (from 27.7 thousand to 9.2 thousand); unit share decreased from 12.4% to 4.6%.
Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020 and October 30, 2022:
  - Sales of disposable devices decreased by 33.1% (from 23.7 thousand to 15.9 thousand); unit share decreased from 10.7% to 8.0%.
  - Sales of prefilled cartridges decreased by 8.1% (from 199.0 thousand to 182.9 thousand); unit share increased from 89.3% to 92.0%.

Figure 19. Massachusetts E-Cigarette Unit Sales by Flavor, 4 Week Estimates 1/2018 – 10/2022*

Trends of Unit Sales by Flavor following Massachusetts’s flavor restrictions

- Following Massachusetts's flavored e-cigarette restrictions, monthly e-cigarette total unit sales decreased by 82.9% from September 8, 2019 to October 30, 2022 (from 605.4 thousand to 103.5 thousand).
- From September 8, 2019 to October 30, 2022:
  - Menthol-flavored e-cigarette sales decreased by 99.2% (from 55.2 thousand to 0.4 thousand); unit share decreased from 9.1% to 0.4%.
  - Tobacco-flavored e-cigarette sales decreased by 37.9% (from 163.7 thousand to 101.6 thousand); unit share increased from 27.0% to 98.1%.
  - Mint-flavored e-cigarette sales decreased by 100.0% (from 338.2 thousand to 0.0 thousand); unit share decreased from 55.9% to 0.0%.
  - All other-flavored e-cigarette sales decreased by 98.7% (from 48.3 thousand to 0.6 thousand); unit share decreased from 8.0% to 0.6%.

*Sales data does not reflect sales from vape shops or online retailers; dates represent end of 4-week periods; All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac, or other cocktails), candy/desserts/other sweets, some other flavor; e-cigarette accessories and devices sold without e-liquids were excluded (2.6% of total dollar sales in October 2022).
Trends of Unit Sales by Product Following FDA’s Flavor Enforcement Policy

- Following FDA’s flavor enforcement policy, which prohibited the sale of flavored prefilled cartridges but exempted disposable devices and menthol and tobacco prefilled cartridges, between February 23, 2020 and October 30, 2022:
  - Sales of disposable devices increased by 144.7% (from 4.8 thousand to 11.8 thousand); unit share increased from 9.9% to 11.4%.
  - Sales of prefilled cartridges increased by 109.1% (from 43.9 thousand to 91.8 thousand); unit share decreased from 90.1% to 88.6%.
