PROJECT SUMMARY

The C.A.R.P (COVID-19 AWARENESS RESPONSE PROJECT) initiative will serve Black and Indigenous Populations of Color (BIPOC), with a focus on LGBTQ+ populations and others attending BIPOC community events and activities in the proposed service areas. AV4H, Inc. specializes in serving the most vulnerable subpopulations within these communities (e.g., sex workers, IDU, non-IDU drug users, previously incarcerated persons, and the Ballroom/House and Pageant communities), and will partner with various LGBTQ+ community-based organizations, LGBTQ+ House & Ballroom Leaders and Black Gay Pageant Systems to implement the project. This approach will work to normalize discussions around COVID-19 vaccination and increase access to vaccinations by conducting the education, outreach, engagement and vaccination navigation in the setting of Black community convening and other LGBTQ+ events and activities.
