
OPHDST Human-Centered Design

**CDC Health Data Innovation
Summit
September 27, 2023**

Introduction

Meet your presenters

Michael Radwin,
Division Director,
Investigate & Respond

Samira Selod,
Design Strategy Lead,
Technology Strategy
Office

Suzi Sorocak,
Research Strategy Lead,
Customer Success &
Engagement

Lizzie Manning,
Research & Design Lead,
Investigate & Respond

Which role best describes your day-to-day activities?

IT

0%

Epidemiology

0%

Health administration

0%

Data science

0%

Informatics

0%

Other

How familiar are you with human-centered design?

I have never heard of it

0%

I have heard of it, but I don't know what it is

0%

I am familiar, but not an expert

0%

I use it in my everyday work

0%

It's an approach that brings people to the center of the development process.

What is human-centered design?

*It's about identifying and meeting
the **needs of humans.***

All humans are considered.

STLTs

CDC partners

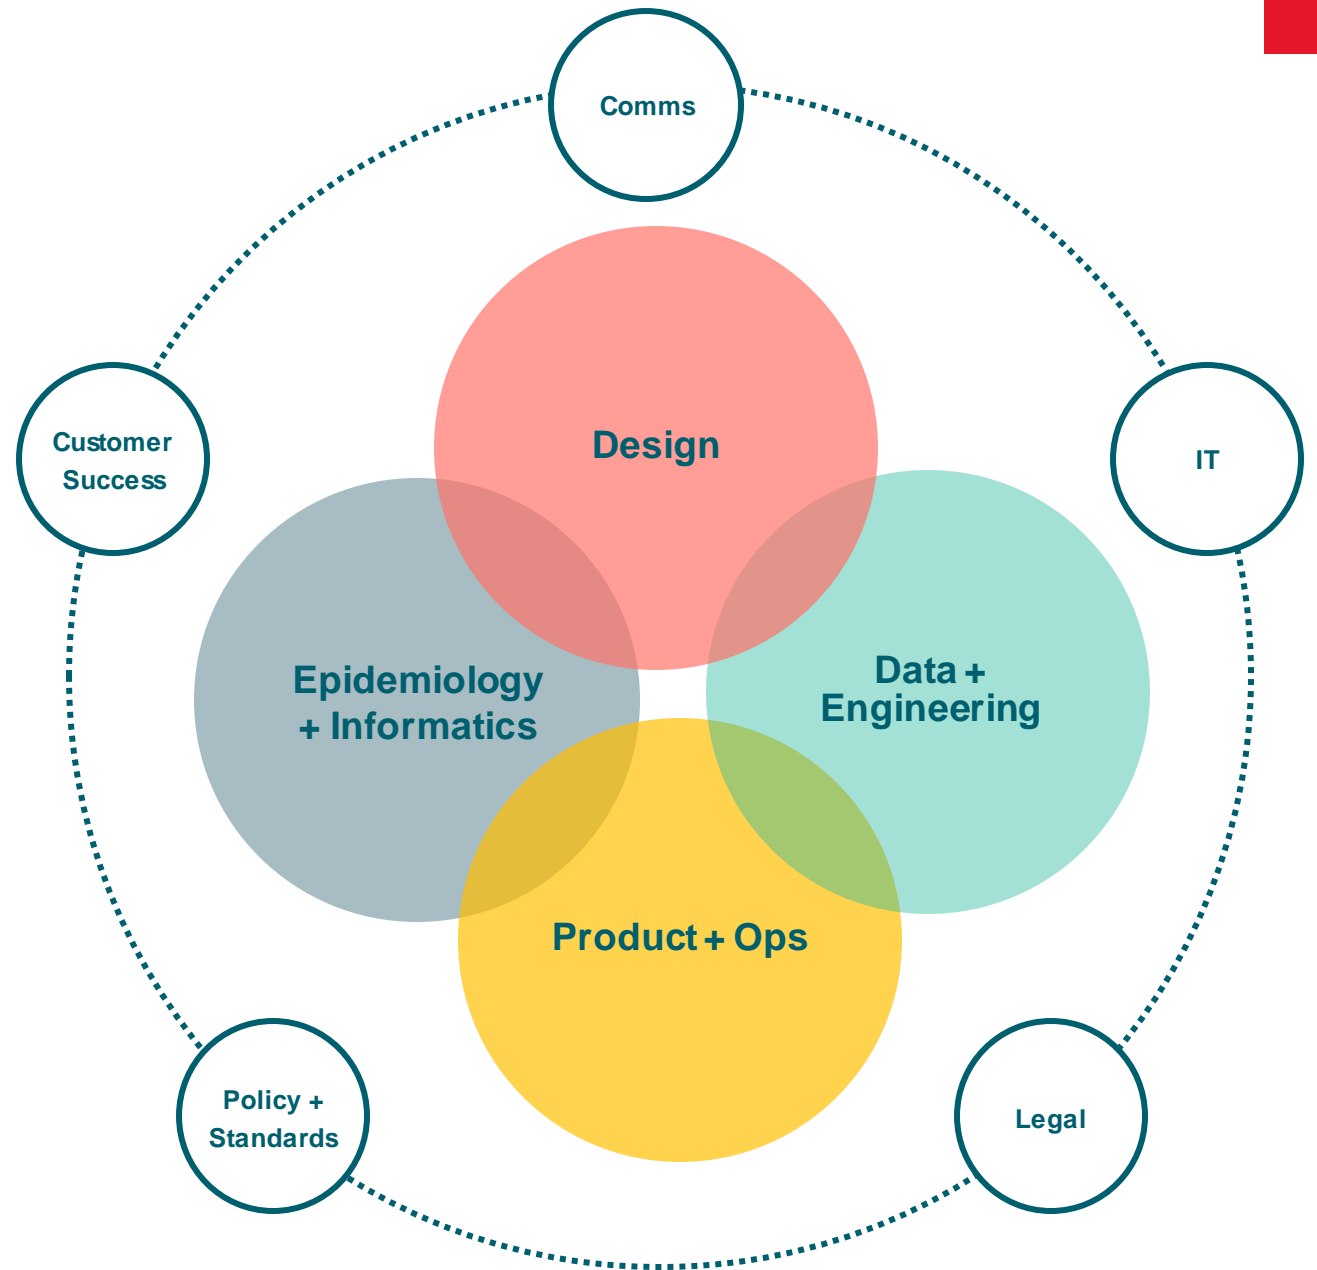

CDC employees

The Public

Who does human-centered design?

***We all do
human-centered
design.***

Does human-centered design actually
provide value?

Yes it does.

Companies that invest in human-centered design increase efficiency and de-risk innovation. Studies show that quality design capabilities:

Result in higher revenue

McKenzie value of design

Deliver products to market 2X faster

IBM total impact of design thinking

Outperform the S&P by 211%

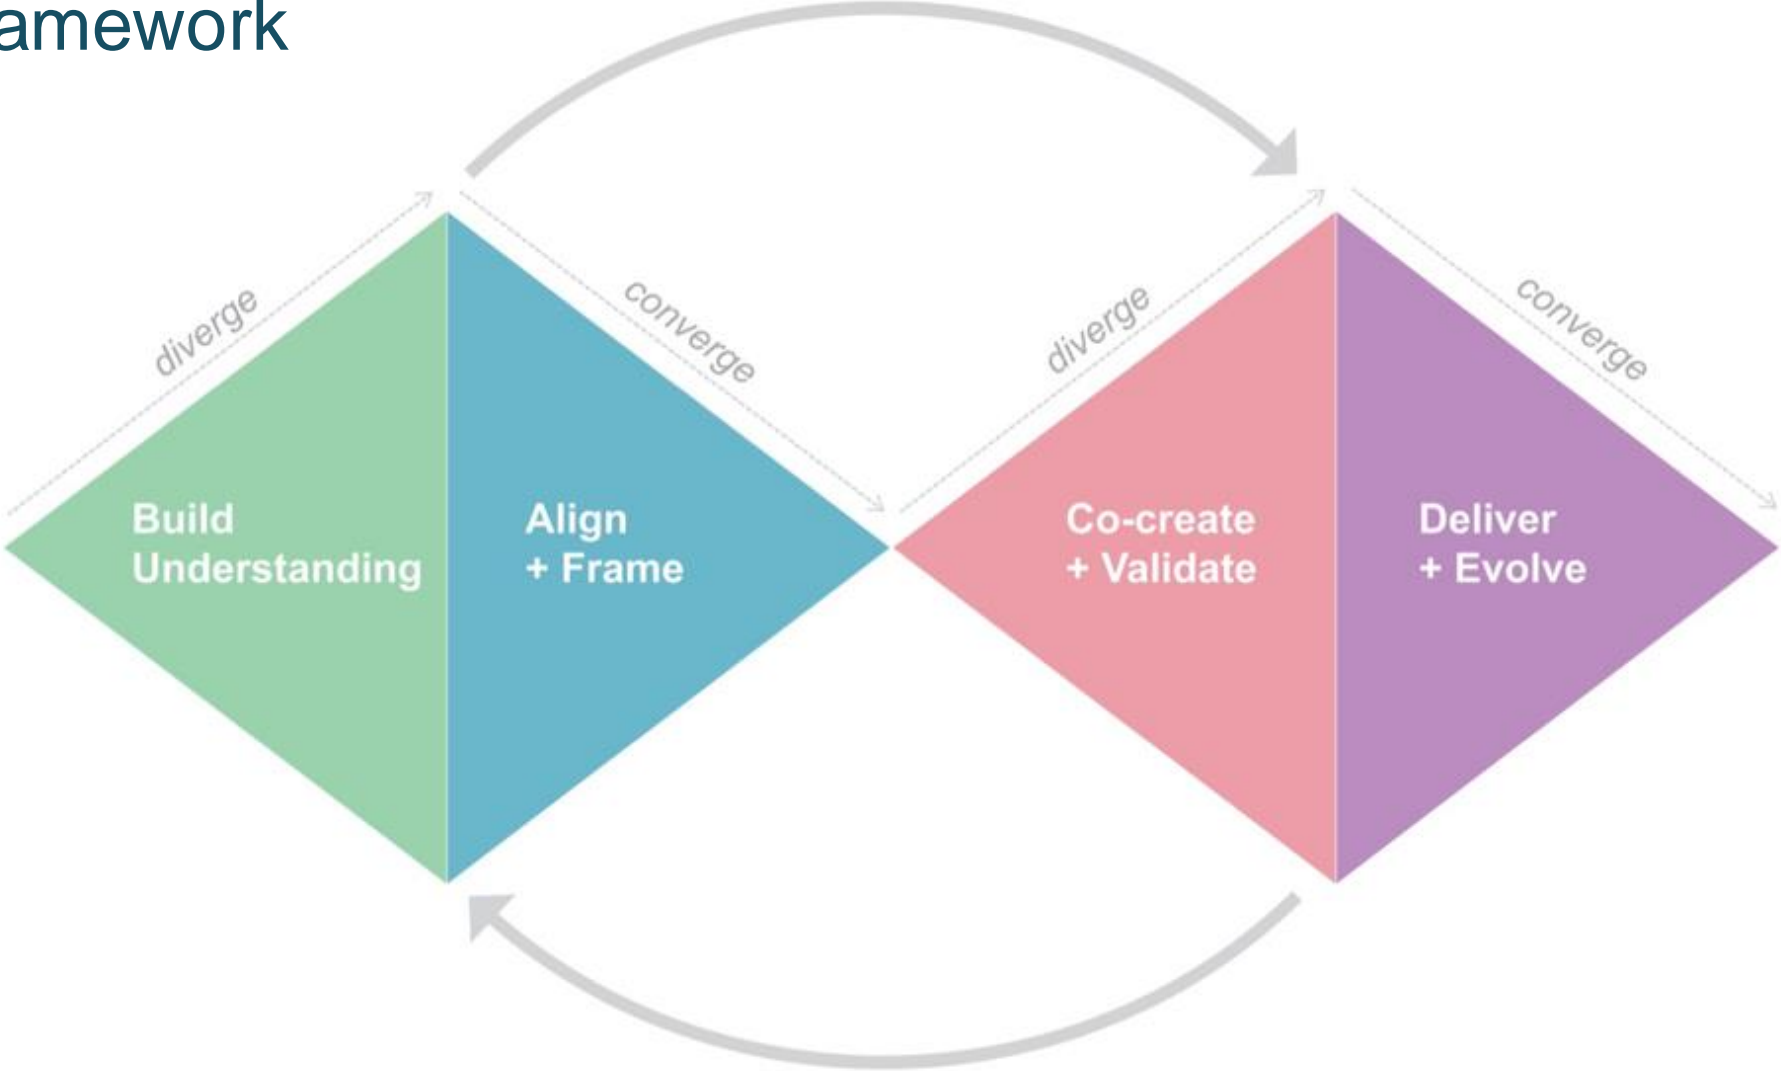

DMI: Value of Design

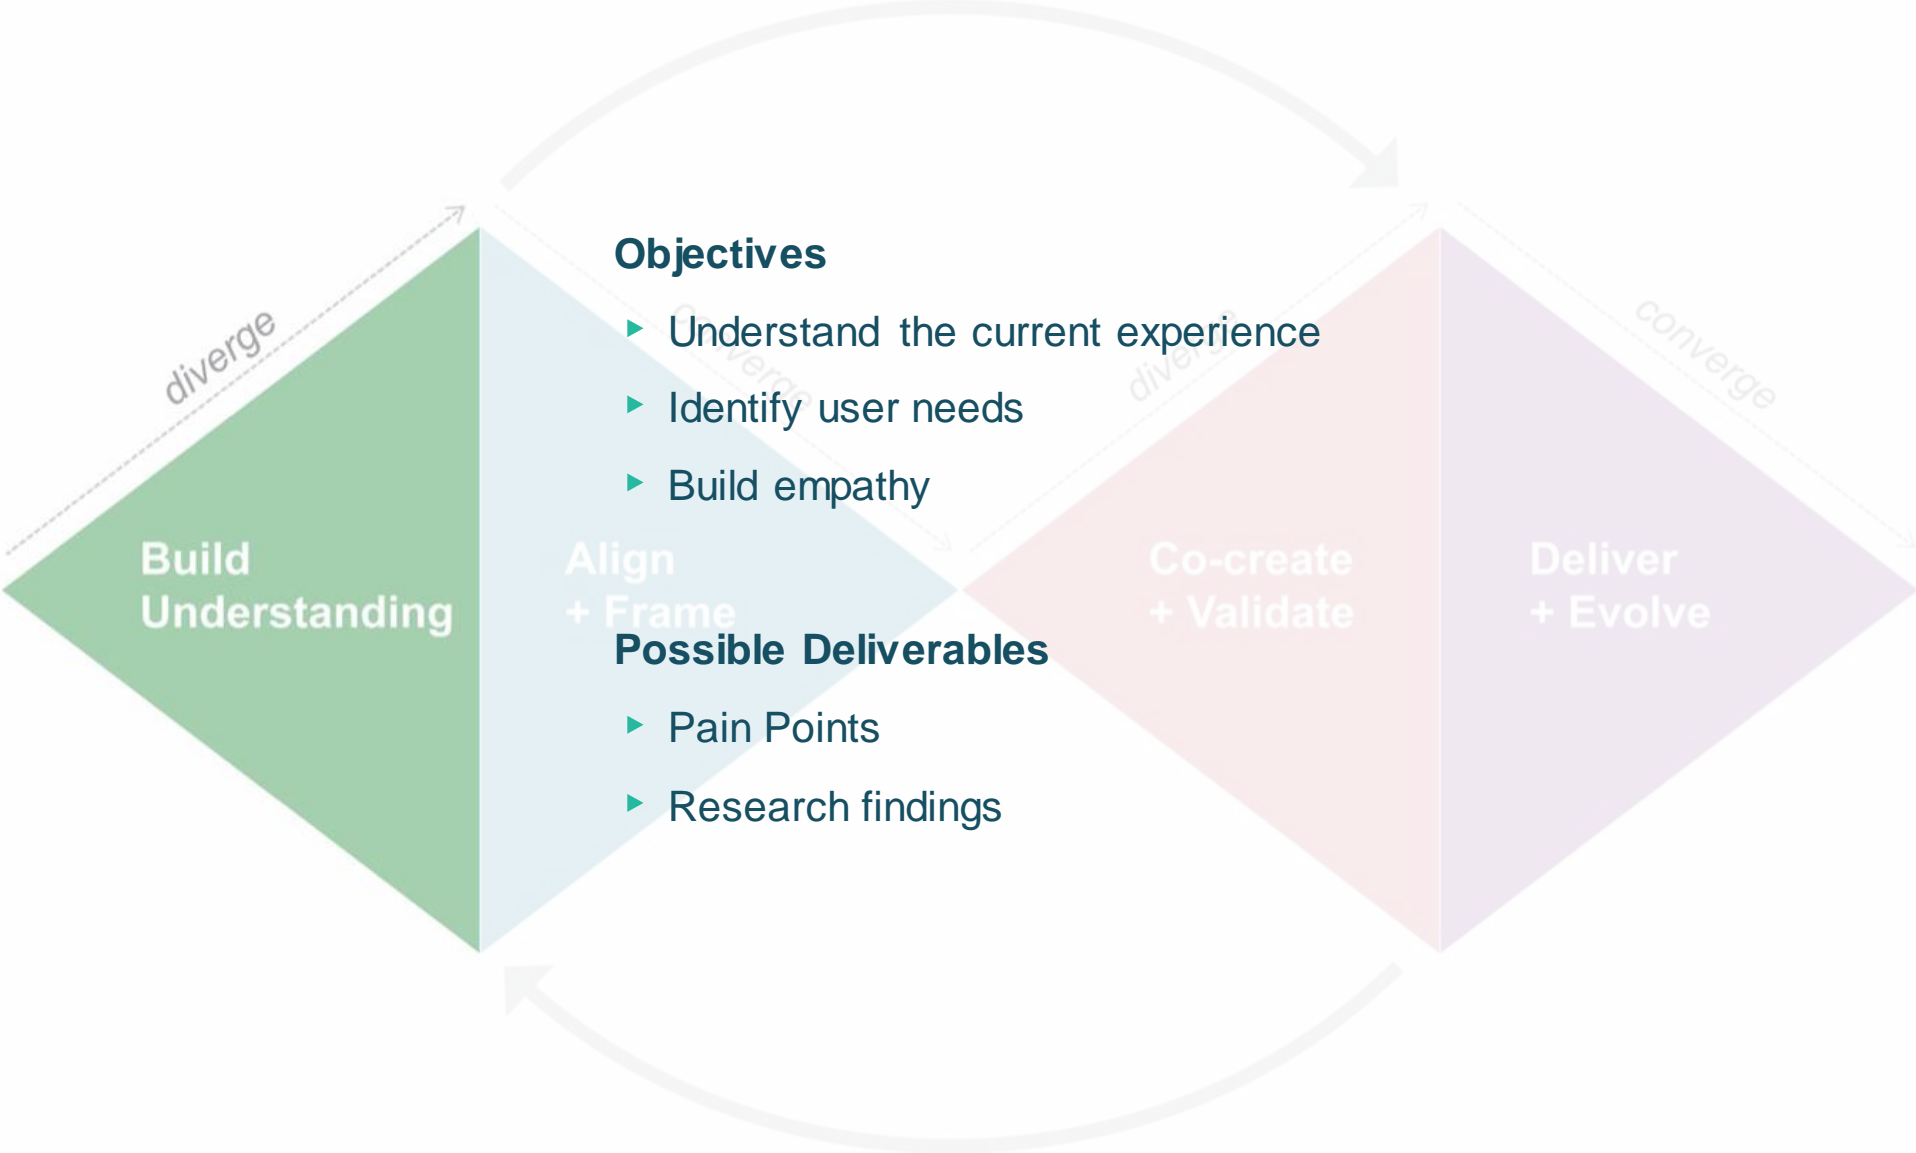

How do you do human-centered design work?

The Double Diamond:

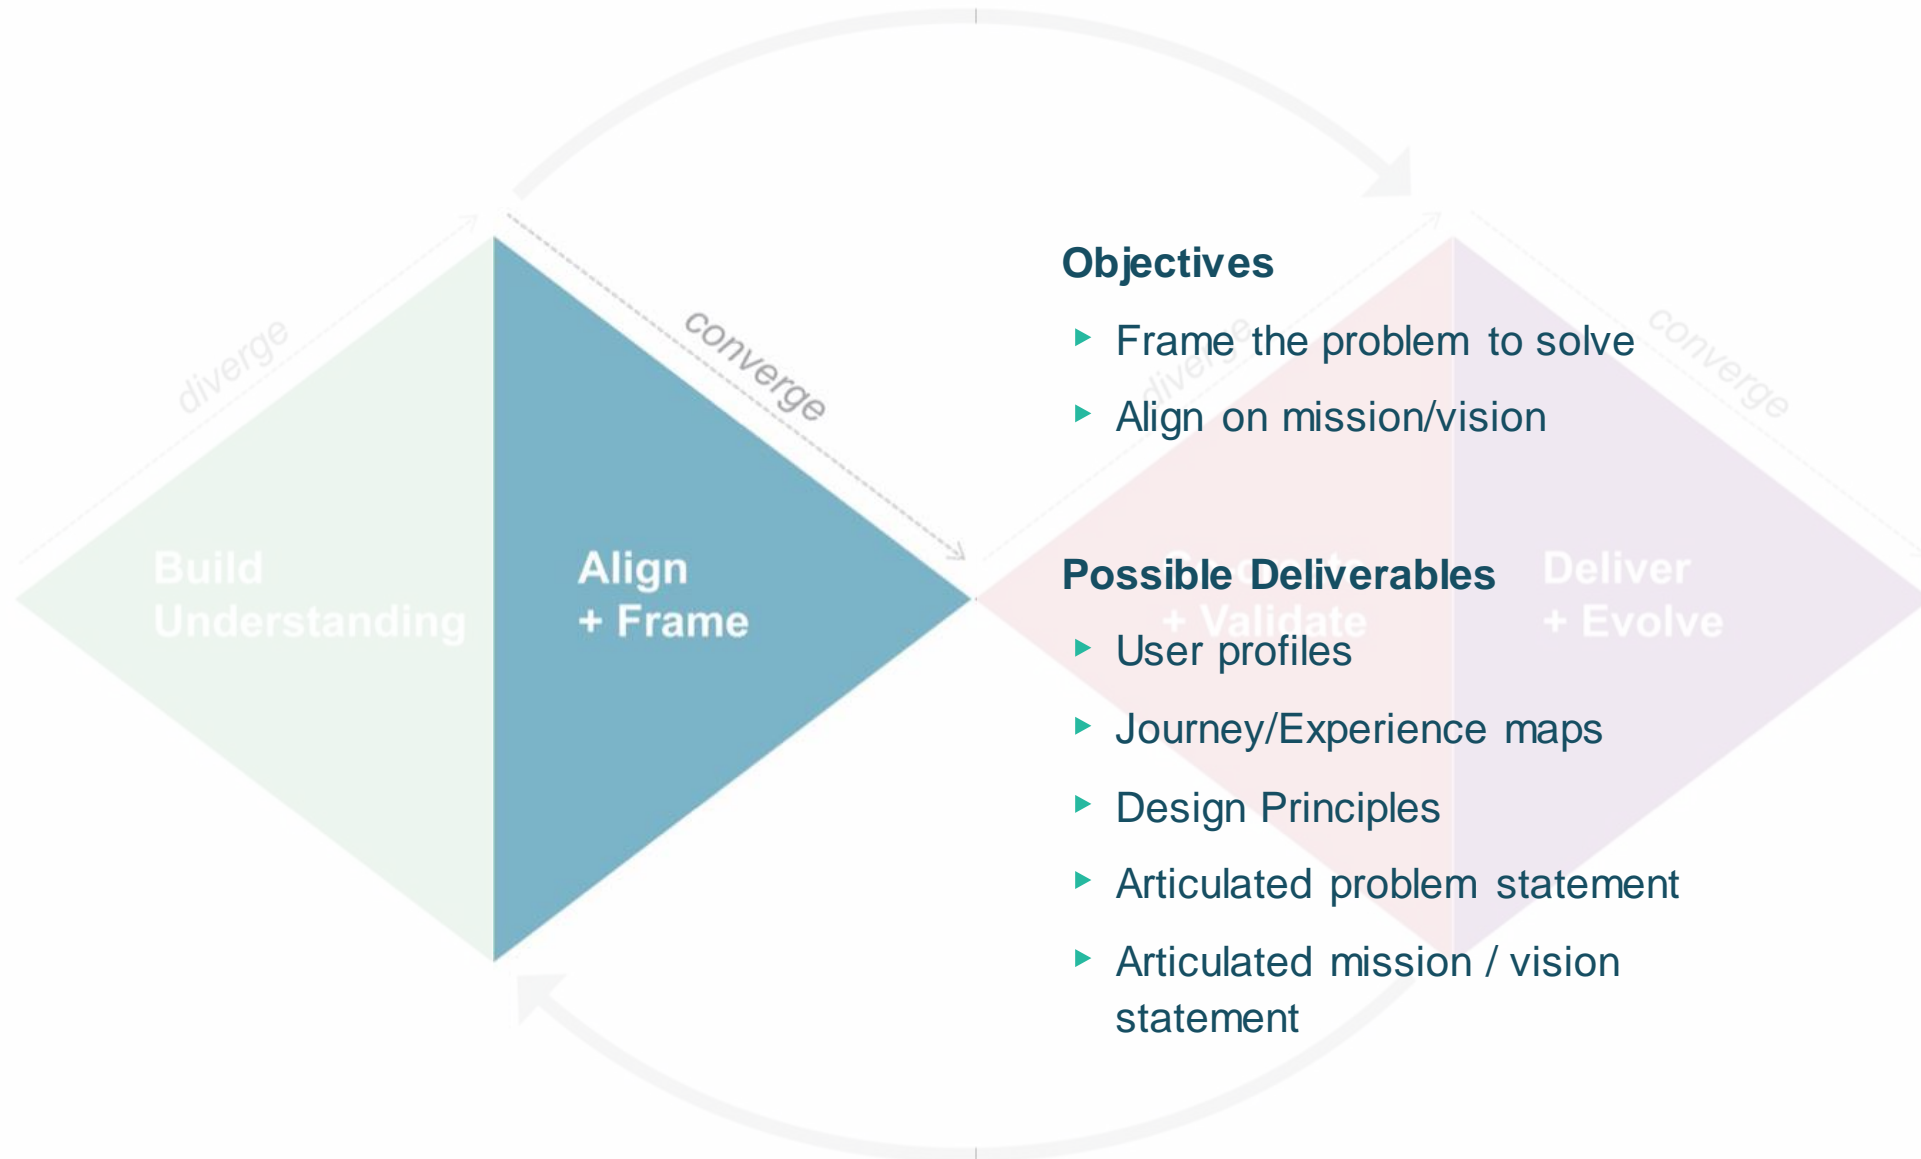

A human-centered design framework

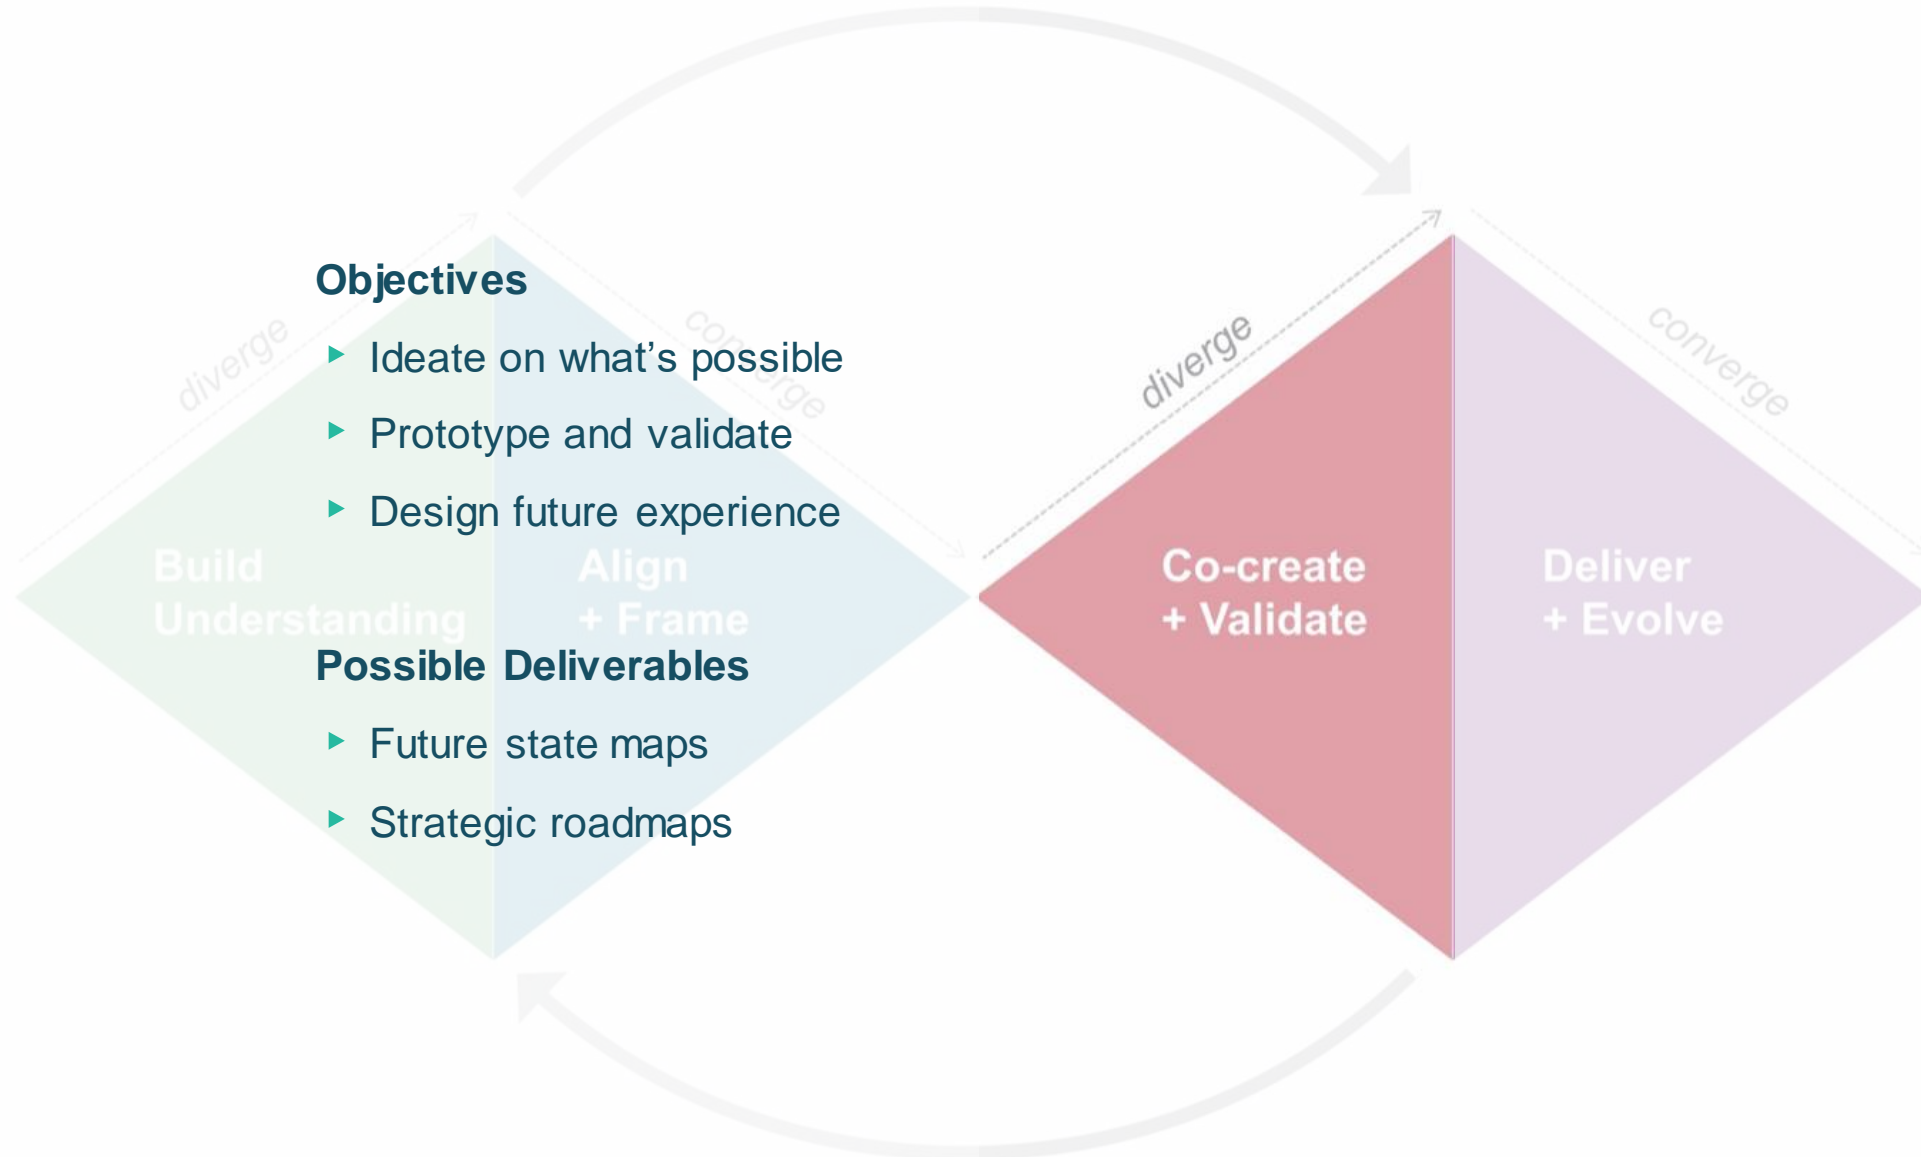

HUMAN-CENTERED FRAMEWORK: THE DOUBLE DIAMOND

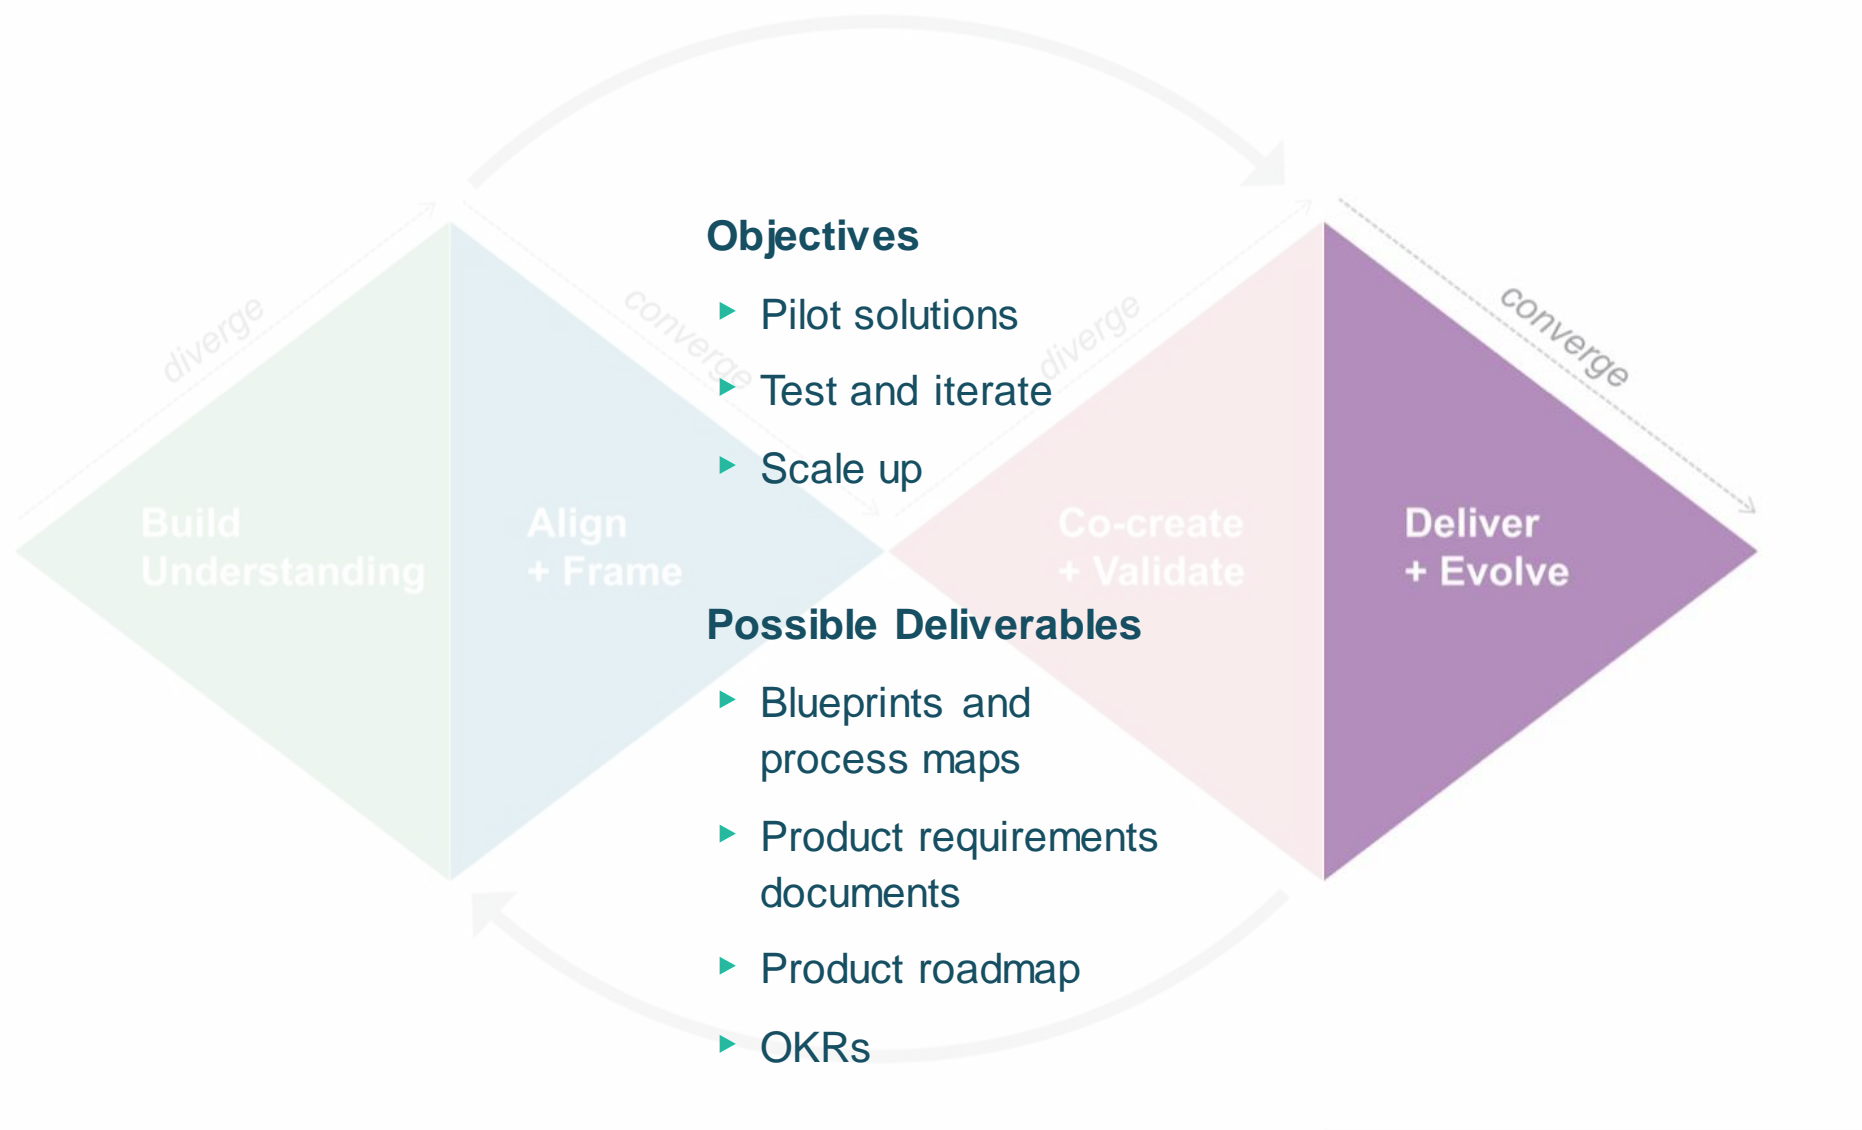

HUMAN-CENTERED FRAMEWORK: THE DOUBLE DIAMOND

HUMAN-CENTERED FRAMEWORK: THE DOUBLE DIAMOND

HUMAN-CENTERED FRAMEWORK: THE DOUBLE DIAMOND

Human-centered design in action

What is your favorite product?
What unique need does it fill?

Let's try human-centered
design together

The 5 whys *(a divergent activity)*

Situation: **I ran a red light**

Why? *I was late for work*

Why? *I overslept*

Why? *My alarm didn't go off*

Why? *I forgot to set it*

Why? *I am exhausted*

Root cause: *I am exhausted*

So what's the problem? *(a convergent activity)*

I am *running red lights*

I am trying to *get to work on time*

but *I keep forgetting to set my alarm*

because *I am exhausted*

which makes me feel *defeated*

How might we solve this problem?

(a divergent activity)

How might we *keep me from being exhausted*

So that *I can stop being late for work*

How might we solve this problem?

How might we *reduce the number of systems STLTs are being asked to use to submit disease-specific data to the CDC*

So that *we can all effectively conduct public health surveillance*

How might we reduce the number of systems STLTs are being asked to use to submit disease-specific data to the CDC so that we can all effectively conduct public health surveillance?

Call to Action

Q&A

Resources

HCD Tips

- ▶ Human-centeredness is everyone's responsibility. It makes our work better ♥
- ▶ This work is never done, so always feel free to speak up!
- ▶ Human-centered design is diverse and inclusive.
- ▶ Anyone, in any role, can use the principles of human-centered design.
- ▶ There is a real cost to not working in a human-centered manner.
- ▶ Talk to people early and often.

Building HCD at the CDC

- ▶ OPHDST has hired our design leaders and will continue to staff the HCD Community of Practice in the following offices and divisions:
 - Technology Strategy Office (TSO)
 - Customer Success + Engagement Unit (CSEU)
 - Detect + Monitor
 - Investigate + Respond
 - Inform + Disseminate
 - Platforms
- ▶ We are happy to facilitate workshops about the following topics with your team:
 - HCD 101
 - Identifying your customers
 - Inventory (and evaluate) customer touchpoints
 - Creating customer journey map
 - Design Strategy and Service design
