Take Action: Engaging Young Leaders to Address the Health Impacts of Climate Change

Date Issued: October 31, 2022
Submission Date Due: December 19, 2022, 5:00pm ET

CDC FOUNDATION OVERVIEW

The CDC Foundation helps the Centers for Disease Control and Prevention (CDC) save and improve lives by unleashing the power of collaboration between CDC, philanthropies, corporations, organizations, and individuals to protect the health, safety, and security of America and the world. The CDC Foundation is the go-to nonprofit authorized by Congress to mobilize philanthropic partners and private-sector resources to support CDC’s critical health protection mission. Since 1995, the CDC Foundation has raised over $1.6 billion and launched more than 1,200 programs impacting a variety of health threats from chronic disease conditions including cardiovascular disease and cancer, to infectious diseases like rotavirus and HIV, to emergency responses, including COVID-19 and Ebola. The CDC Foundation managed hundreds of programs in the United States and in more than 160 countries last year.

1. SUMMARY OF FUNDING OPPORTUNITY

The goal of this Request for Proposals (RFP) is to seek applications from youth-focused organizations interested in engaging young people in raising awareness of the health impacts of climate change and helping communities take steps to prepare for and mitigate the effects. For the purposes of this RFP, the terms youth and young people refer to individuals between the ages of 15 and 24 years old. The CDC Foundation will partner with non-profit organizations with a proven record of working with young people. Successful applicants will have existing connections to underserved communities that are most vulnerable to climate change. The primary focus of this funding is to support young leaders’ actionable and scalable solutions to accelerating the capacity, preparedness and resiliency of vulnerable communities across the country. Priority consideration will be given to eligible youth-led and/or minority-led organizations.

2. BACKGROUND AND NEED

Climate change is getting much more attention in today’s headlines and there is more evidence available on how the earth’s changing climate is affecting human health. Health impacts include increased respiratory and cardiovascular disease, injuries and premature deaths related to extreme weather events, changes in the prevalence and geographical distribution of food- and water-borne illnesses and other infectious diseases, risks to mental health and more. Many young people live in communities that have contributed the least to climate change but are among those most threatened by the changing climate. The World Health Organization estimates that between 2030 and 2050, climate change will cause nearly 250,000 additional deaths per year, because of health conditions such as malnutrition, malaria, diarrhea, and heat stress. In fact, WHO has gone so far as to call climate change “the single biggest health threat facing humanity.”¹

While most Americans acknowledge the threat of our changing climate, there is less agreement on what to do about it. There are, however, numerous actions individuals and communities can take to reduce our carbon footprint, conserve natural resources and create healthier lifestyles. We can drive change by encouraging individuals to eat sustainably, use less energy, and plant more trees, just to name a few. The CDC Foundation is committed to supporting interventions that will reduce the impacts of our changing climate and help protect the health and safety of Americans.

3. OUTCOMES, ACTIVITIES, DELIVERABLES AND INDICATORS

3.1 Outcomes

Funded partners will be working toward the following overall goals:

- Increased public awareness of the linkages between climate change and health

¹ “Climate Change and Health”, World Health Organization, October 30, 2021, [https://www.who.int/news-room/fact-sheets/detail/climate-change-and-health#:~:text=Climate%20change%20%2D%20the%20biggest%20health%20threat%20facing%20humanity&text=The%20Intergovernmental%20Panel%20on%20Climate%2C%20rise%20to%201.5%C2%B0C.](https://www.who.int/news-room/fact-sheets/detail/climate-change-and-health#:~:text=Climate%20change%20%2D%20the%20biggest%20health%20threat%20facing%20humanity&text=The%20Intergovernmental%20Panel%20on%20Climate%2C%20rise%20to%201.5%C2%B0C)
• Increased community engagement and youth leadership in tackling climate and health challenges
• Expanded capacity of youth-focused organizations to address climate change in their respective communities

3.2 Activities, Deliverables and Indicators

Activities
Activities should be community-based but could have reach across multiple cities, counties and states. Proposals do not need to have a multi-community, regional or national reach, but may. Applicants may propose subcontracting to private, public or for-profit organizations to execute activities. Examples of potential activities could include, but are not limited to:
• creating or bolstering an existing youth council to focus on climate-related health issues;
• developing a climate and public health course to engage college students in the issues and solutions;
• implementing innovative climate education and resilience projects that use the arts to create dialogue around the topic of climate and health;
• training young people on environment-related health equity issues in their communities; or
• hosting young adult-led environment awareness community events to raise attention to local climate and health issues and ways for citizens to get involved.

Deliverables
Awardees will be expected to complete the deliverables outlined below. Please include these deliverables, as well as any additional deliverables you identify in your proposal:
• Provide brief quarterly progress reports on basic activity metrics (see below for a list of potential indicators)
• Participate in regularly scheduled conferences calls with other awardees and subject matter experts to share progress on activities and discuss lessons learned
• Share one success story from the field
• Submit final narrative report to describe: partner collaboration, successes, challenges, lessons learned, event and activity metrics (i.e., number of event participants, number of partner meetings held, etc.)

Potential Indicators
• Number/types of activities and events held to raise awareness of climate and health challenges and solutions
• Number and types of local young adult leaders and community members trained
• Number of people reached with climate and health messaging
• Number of communities served

4. FUNDING INFORMATION

The CDC Foundation intends to make 10 to 15 awards ranging between $25,000 and $50,000 to youth-focused organizations. The final award amounts will be contingent on the submission of a detailed, reasonable budget approved by the CDC Foundation.
WHAT WE WILL FUND
The CDC Foundation will fund a wide range of strategies and activities to address the need described in section 2 (BACKGROUND AND NEED) of this RFP. More specifically, we seek proposals for projects that:

- Promote awareness of climate change and the corresponding health impacts within their community
- Promote actionable solutions to reduce impact of climate change on health
- Create pathways for meaningful partnerships and participation of young people

WHAT WE WILL NOT FUND
- General, ongoing operating costs, unrelated to funding opportunity objectives
- Capital improvements, unrelated to funding opportunity objectives
- Political/lobbying activities

FUNDING SPECIFICS
- Awarded funds must be used for the purposes described in the organization’s application and must be expended or committed by the end of the project implementation period (est. February 29, 2024).
- Awarded funds will be made available upon the awardee’s return of a signed Letter of Award.

5. ELIGIBILITY INFORMATION
To apply, an organization must:

- Be headquartered in the United States
- Be a nonprofit tax-exempt under section 501(c)(3) or qualify for exemption under an IRS code other than 501(c)(3),
- Be in good financial standing and have sustainable operations,
- Be an equal opportunity employer with all-inclusive membership that does not discriminate on the basis of gender, race/ethnicity, color, sex, sexual orientation, country of national origin or nationality, age, religion, intellectual or physical disabilities and military or veteran status in its activities or operations, and
- Be a youth-focused organization that carries out activities and programs for young people.

Examples of potential awardees include associations, universities/colleges, faith-based groups, advocacy, and social organizations that have the capacity to educate and engage communities and have a proven record of serving young people.

The CDC Foundation reserves the right to conduct a pre-award risk assessment to assure applicants meet the eligibility criteria. Data available through third party sources such as Dun & Bradstreet may be consulted, along with information publicly available via Federal and State award, debarment, exclusion and sanction databases.

6. APPLICATION INFORMATION AND TIMELINE
Applicants should follow the instructions set forth below in the preparation and submission of their proposal to the CDC Foundation. The CDC Foundation will not be responsible for any

**Budget and Budget Narrative**

Applicants must provide a detailed budget and budget narrative for all anticipated project costs using the following templates:

**Attachment B: Budget Narrative Template (Word Document)**
**Attachment C: Budget Template (Excel sheet)**

Budgets should clearly demonstrate how funding will be used to implement proposed project activities and achieve desired impact. Budgets must not exceed **$50,000.00** and should reflect an **implementation period of up to 12 months** (est. March 1, 2023 – February 29, 2024).

**6.4 Anticipated Timeline**

The timeline below is subject to change at the sole discretion of the CDC Foundation:
7. SELECTION PROCESS AND REVIEW CRITERIA

Completed applications submitted by the 5:00 PM ET deadline on Monday, December 19, 2022, will be evaluated in accordance with the review criteria stated below. Youth-led and minority-led organizations will receive priority consideration for this funding opportunity. Youth-led is defined as an organization that is primarily led and/or managed by young people 24 years old or younger and minority-led is defined as an organization where 51% or more of overall staff, board members and volunteers in all levels of the organization are people who identify as racial/ethnic minorities.

The CDC Foundation will conduct a pre-award risk assessment and may request additional financial and/or organizational information from applicants for the purpose of conducting the assessment. Pre-award risk assessment findings may impact eligibility and/or award structure and payment schedule.

7.1 Evaluation of Project Plan

The following table provides an outline of the selection criteria and scoring details for how proposals will be evaluated:

</thead>
</table>
Applicant describes experience in key areas including:
- Serving and engaging young people
- Working in climate change
- Providing science-based information to communities
- Engaging community members and young leaders in the development of youth and community driven, culturally appropriate initiatives

Experience demonstrates existing connections to underserved communities that are most vulnerable to climate change and suggests organizational capacity to implement proposed project plan.

## 7.2 Evaluation of Budget/Budget Narrative

Budget information will be reviewed to assure requisite details are provided and to confirm the budget conforms with time (up to 12 months) and cost (up to $50,000.00) specifications stated in the RFP. Budget information will also be evaluated for realism, appropriateness, cost-effectiveness and overall alignment with the applicant’s Project Plan. Budget information will not be assigned quantitative scores.

## 8. COMMUNICATION DURING RFP PERIOD

Questions and requests for clarification regarding the RFP should be emailed to YouthClimateRFP@cdcfoundation.org by **5:00 pm ET on December 2, 2022**. Questions and requests for clarification received by the stated deadline for inquiries will be consolidated into a single Q&A document posted to the Request for Proposals page of the CDC Foundation website. This Q&A document will be updated weekly, with a final update to the Q&A document posted on December 7, 2022.

The CDC Foundation will host a prospective applicant webinar to answer questions related to this RFP on **November 18, 2022, at 2:00 pm ET**. Register in advance for the applicant webinar here: [https://cdcfoundation.zoom.us/webinar/register/WN_cFWyP8E9SaKu3YyS59lmqvg](https://cdcfoundation.zoom.us/webinar/register/WN_cFWyP8E9SaKu3YyS59lmqvg). After registering, you will receive a confirmation email containing information about joining the webinar. A recording of the webinar will not be available, but the webinar slide deck will be posted to the Request for Proposals page of the CDC Foundation website. Responses to questions raised on the prospective applicant webinar will also be integrated into the Q&A document.
